iSolved®

V850 TIME CLOCK

A sophisticated, reliable unit with a feature-rich biometric system. The V850 also adds job costing and department transfers.

The Velocity 850 delivers all of the benefits of biometric technology at a cost effective price, all while providing the time tracking features you require. In addition to the built-in extended time tracking features, the V850 has the ability to perform job costing and department transfers.

Employees punch using finger scan technology that eliminates "buddy punching" and the hassle of distributing and replacing employee ID badges. The elimination of buddy punching alone can pay for the V850 in just a few months.

What can you do with the V850?

- Employees can punch in/out for their shifts, breaks and meals
- Employees can change department and job assignments
- Employees can enter tips and other disbursements
- Employees can view schedule for today, and the next 7 days
- Employees can view punches entered on the clock for current day and previous weeks
- Supervisors can override schedules and meal restrictions

The V850 is a reliable and time-tested system with a sophisticated biometric system that is compatible with iSolved TimeForce, iSolved Time and TimeForce II.
